

Brief Introduction of Oerlikon:-

The Manmade Fibers Segment, with its brands Oerlikon Barmag and Oerlikon Neumag, is a world market leader for systems used in the manufacture of manmade fibers. Synthetic textile fibers are processed into functional clothing, carpets and furnishings, and increasingly also into technical textiles for airbags and safety belts, as well as into geotextiles for road construction and other industrial applications. The Segment offers end-to-end systems, covering every step in the entire process of manmade fiber production, from melt to yarn.

Oerlikon Barmag specializes in large-scale filament spinning and texturing systems for the manufacture and processing of polyester, polyamide and nylon. Oerlikon Neumag's core competencies lie in high-tech production systems for the manufacturing of bulked continuous filament (BCF) carpet yarns, synthetic staple fibers and nonwoven fabrics. In addition, the Manmade Fibers Segment also offers comprehensive engineering and maintenance services, as well as the construction of complete polycondensation solutions. Over 2 500 employees work for the Manmade Fibers Segment at eleven sites worldwide, has a worldwide presence in 120 countries.

As a future oriented company, the research and development at this division of the Oerlikon Group is driven by energy-efficiency and sustainable technologies (e-save). At the R&D centers in Remscheid, Neumünster and Chemnitz, highly-qualified engineers and technicians develop innovative and technologically-leading products for tomorrow's world. In addition to that, we support the VDMA's Blue Competence Initiative and are member there as well. With the continuous polycondensation and extrusion line systems and their key components, the company caters to the entire process with automated and digitally networked Industry 4.0 solutions – from the monomer all the way through to the textured yarn.

Along the entire value chain, you know you have a strong partner at your side with Oerlikon Manmade Fibers. We take responsibility for the quality of your products, manufactured in a closed production chain tailored to your requirements that we have designed, installed and maintain in house. We will be happy to support you along your entire value creation chain with our comprehensive Customer Services – true to our slogan: Partnering for Performance.
