

About Luwa

Founded in 1935 and headquartered in Uster, Switzerland, Luwa Air Engineering brings over 90 years of global expertise in air engineering. With manufacturing facilities in India, China, Singapore, the USA, and Turkey, Luwa delivers reliable, high-performance solutions worldwide.

Luwa India, with over 30 years of experience and more than 1,100 completed projects, offers end-to-end services in sales, design, installation, and commissioning. Our focus is on air engineering systems for PSF, POY, DTY, FDY, IDY, Mother Yarn and more.

Key offerings include cutting-edge Air Handling Units, intelligent DigiControl 7 sensing technology for optimized system performance, and durable components such as axial fans, static filters, and air washers—each engineered for maximum efficiency and long-term reliability.

Visitors will gain valuable insights into Luwa's standout features, including galvalume PUF panels, heresite-coated cooling coils, and advanced damper systems that ensure superior energy efficiency and air quality.

With offices and service centers in major textile regions, and sales agents in over 50 countries, Luwa ensures fast, localized support. Committed to sustainability, we lead innovations in heat recovery, air filtration, and waste management—enhancing efficiency while reducing environmental impact.
